and associated subjects

CATALOGUE OF THE REFERENCE LIBRARY,

ROYAL NATIONAL INSTITUTE FOR THE BLIND,

224 GREAT PORTLAND STREET, LONDON W.1.

++++++++++++

This catalogue is divided into sixteen sections, the items in each being arranged chronologically. The sections are:

1. general works on blindness
2. medical aspects
3. administrative aspects
4. individual and social aspects
5. education and rearing of children
6. rehabilitation (general works)
7. vocational rehabilitation
8. social and general rehabilitation
9. literature for the blind
10. partial sight
11. the war blinded
12. deafness and deaf-blindness
13. other handicaps; multiple handicaps
14. old people (general)
15. biography
16. literature by the blind.

The catalogue is designed to be kept in a loose-leaf folder. Supplementary sheets of accessions will periodically be issued, for insertion at the end of each section. The items may be consulted in the Library, or (with rare exceptions) borrowed for a term of six weeks.

Four points should be noted:

1. All works are in letterpress.
2. There are some few items which could be assigned to more than one class - a work on the vocational rehabilitation of the war blinded, for example, or an autobiography by a deaf-blind author. Double entries would over the years have caused excessive bulk. Such items have therefore been listed where - it is hoped - the reader would instinctively look first.
3. The Library receives the annual reports of all British voluntary societies for the blind, and of many organisations overseas. A supplement dealing with these and the Library's holdings of government publications is in preparation.
4. Some of the items appearing on pp6-8 of the Vocational Rehabilitation section are incorrectly ordered. These pages will shortly be issued in a revised form.

London, February 1962.

GENERAL WORKS ON BLINDNESS

A Faggot of French sticks. (Essays). 1852.
Baker, C. The blind. (Article in English Encyclopaedia). 1859. also in Literature on the Blind. Vol. 2.
Bird, J. The deaf and dumb and the blind. 1863.
Johnson, E.C. London International Exhibition, 1871. Official reports... Div. II. Reports on the methods of teaching the blind, and the deaf and dumb.
